

Michael Bisogno (Mike)

Virginia Department of General Services Director, Office of Fleet Management Services

Michael Bisogno is Director of the Office of Fleet Management Services, where he oversees the maintenance, repair and replacement of a statewide fleet comprised of approximately 4000 vehicles. Additionally, he manages the fuel contracts used by state agencies and local governments and the fleet's conversion to alternative fuels.

Bisogno began working at the Office of Fleet Management Services in 2005 and was the Fleet Services Manager before becoming Director in 2009. He began working in the fleet management field with Tecom Fleet Services on the Commonwealth Vehicle Management Control Center (VMCC) project. Before working in the fleet field, Bisogno worked extensively in the private sector automotive repair market with positions as Technician, Service Writer, and Manager.

Bisogno has earned the Certified Automotive Fleet Manager designation from the National Association of Fleet Administrators and holds a Bachelor of Science in Business Administration from the University of North Carolina at Wilmington.
